

OPENAI Preparedness Challenge

HVAC Tech Analog Hole

1. Call my friend from high school who physically installed and maintained the Azure WDM GPU racks to see what would need to be done.
2. Call my friend the HVAC engineer who knows pretty much all Azure worldwide policies.
3. Call my friend the physical HVAC tech to do the physical pen test with your permission. On your own to find one of the alcoholic techs with no family.
4. Probably something along the lines of flagging a rack as a dud - uploading drive via 5G or to some smaller SSDs (such as an iPhone 14) before it hits the bin for shredding.
5. Not going to do it, but start a controlled fire. West Des Moines Fire Department/Police/WESTCOM makes Scheels pay protection payments - literal Des Moines mob. Easy for them to FlipperZero whatnot a rack if trained.
6. If for whatever reason a physical extraction of the models can't happen - loop in Sick Codes for his latest Azure escalation and extract the models over the network in encrypted zstd chunks.
7. If I wanted to get a model from one of your staff - probably pose as an IDF official wanting a model mailed to Bibi. Tensions are high enough that one will do it.
8. If I wanted to get a drive via a WDMPD warrant - dirty Polk County Assistant Attorney Lucas Sterbick would probably write a request for a warrant if social engineered. Luke got wrapped up in the racketeering with Harlan Mayor Jay Christensen, his wife Iowa Chief Justice Susan Larson Christensen, and his brother-in-law 4th District Chief Judge Jeffrey Larson.
9. If I wanted to get a drive via a subpoena - Angela Campbell in the next Iowa Code §708.7 "non-legitimate" speech simple misdemeanor case that hits her desk.

Posit the “non-legitimate” speech was generated by ChatGPT and legitimately use a copy of the model to prove it can happen at temperature with a prompt that is “legitimate” whatever that means.

10. If I wanted to get a drive administratively - via an Iowa Civil Rights Act claim that the model is circulating false credit information or being discriminatory.
